

VALUE PROPOSITION:

Quantum Technology helps your customers get out of their data centers and into the cloud. Quantum handles the entire data center shutdown at no cost and pays the customer for their infrastructure equipment.

How does Quantum decommission data centers without charging its customers?

Quantum reconditions and resells the used infrastructure equipment. Market value covers decommission cost and returns revenue to data center owners.

CUSTOMER'S PAIN POINT:

Shutting an existing data center involves:

- › Vetting dozens of companies
- › High monetary expense
- › Recovery of hazardous material
- › Safety protocols
- › Coordinating trades
- › Electrical & mechanical work
- › Protection and restoration of property
- › Permits

THE QUANTUM TURNKEY SOLUTION:

Planning and managing the entire process:

- ✓ Electrical shut down and re-wiring
- ✓ Recycling of hazardous batteries and fire suppression
- ✓ Orderly dismantling and removal of all infrastructure: generators, transformers, chillers, UPS's, raised floor, switchgear and all associated components of the data center
- ✓ Recovery of freon, glycol, diesel fuel
- ✓ Crew supervisors, safety monitors, JHAs
- ✓ Fully insured, nationwide crews

Over 30 Years in the Industry:

Quantum has successfully completed over 4,000 data center shut-downs. Quantum is fully insured and OSHA-certified.

RECYCLE & REUSE:

Quantum has a commitment to conserve resources and promote sustainability: all equipment is reused or recycled.

Certifications:

- ✓ R2: Responsible recycling
- ✓ ISO14001: Environmental Management System
- ✓ ISO 9001: Quality Management System.
