

VALUE PROPOSITION

Quantum Technology helps data center developers recover capital from retrofit projects. We purchase existing infrastructure, from generators and switchgear to cooling systems and raised flooring, and handle removal at no cost. The recovered value goes straight toward your build.

How Does Quantum Recover Value From Existing Equipment?

Quantum reconditions and resells used infrastructure. We assess what's on-site, make an offer, and pay the owner before removal, turning a line-item cost into a client credit.

ASSET RECOVERY FOR RETROFIT & DEMO PROJECTS

On your next retrofit or demolition project, we will remove and purchase:

- › Generators & UPS
- › Switchgear & transformers
- › Chillers, CRACs & cooling towers
- › Data Center Racks, PDUs, raised flooring
- › Laboratory Equipment

THE QUANTUM TURNKEY SOLUTION

- ✓ GC-ready safety protocols: toolbox meetings, pre-task meetings, JHAs and pick plans
- ✓ Coordinating with your team, subs, and demo crews
- ✓ Recycling of hazardous batteries and fire suppression
- ✓ Orderly dismantling and removal of all infrastructure: generators, transformers, chillers, UPS's, raised floor, switchgear and all associated components of the facility
- ✓ Recovery of freon, glycol, diesel fuel
- ✓ Fully insured, nationwide crews

Over 30 Years in the Industry

Quantum has successfully completed over 4,500 data center and facility projects, trusted by **CoreWeave**, **CBRE**, **DPR Construction**, **Whiting-Turner**, and **Clune**. Fully insured and OSHA-certified.

RECYCLE & REUSE

Quantum has a commitment to conserve resources and promote sustainability: all equipment is reused or recycled.

Certifications:

- ✓ R2: Responsible recycling
- ✓ ISO14001: Environmental Management System
- ✓ ISO 9001: Quality Management System.
