

VALUE PROPOSITION

Quantum Technology helps enterprise data center operators recover value from equipment decommissioning. When aging or surplus generators, switchgear, cooling units come out, we purchase the equipment and handle removal at no cost.

How Does Quantum Decommission Data Centers Without Charging Its Customers?

Quantum reconditions and resells the used infrastructure equipment. Market value covers decommission cost and returns revenue to data center owners.

NAVIGATING DATA CENTER DECOMMISSIONING

Decommissioning infrastructure on a live, mission-critical site involves:

- › Vetting companies
- › Coordinating trades
- › High monetary expense
- › Electrical & mechanical work
- › Recovery of hazardous material
- › Protection and restoration of property
- › Safety protocols

THE QUANTUM TURNKEY SOLUTION

Planning and managing the entire process:

- ✓ Electrical shut down and re-wiring
- ✓ Recycling of hazardous batteries and fire suppression
- ✓ Orderly dismantling and removal of all infrastructure: generators, transformers, chillers, UPS's, raised floor, switchgear and all associated components of the data center
- ✓ Recovery of freon, glycol, diesel fuel
- ✓ Crew supervisors, safety monitors, JHAs
- ✓ Fully insured, nationwide crews

Over 30 Years in the Industry

Quantum has successfully completed over 4,500 data center projects, trusted by CoreWeave, QTS, Equinix, Bloomberg, and more. Fully insured and OSHA-certified.

RECYCLE & REUSE

Quantum has a commitment to conserve resources and promote sustainability: all equipment is reused or recycled.

Certifications:

- ✓ R2: Responsible recycling
- ✓ ISO14001: Environmental Management System
- ✓ ISO 9001: Quality Management System.
